

# Instructions

Please read instructions carefully. Prior to first use remove long tube with washer and measuring tube and rinse the bottle

1. Replace measuring tube (1), in neck of bottle and fill siphon with 1 liter of very cold water for best results.
2. Insert long tube with washer (2).
3. Screw on siphon head firmly.
4. Place CO2 charger (4) in holder. For guaranteed quality use only original brand CO2 chargers.
5. Screw the holder with the charger into the siphon bottle until you hear the gas enter with a hiss. Charge with only 1 charger. Remove holder with empty charger and replace with cap.
6. Shake well before dispensing soda water, press lever gently and direct the water towards the side of the glass.

## Safety Measurements:

1. The soda siphon and the CO2 chargers are pressurized containers and should always be handled with care and attention.
2. Use only original or authorized parts. Never substitute parts or products that are not authorized replacement parts.
3. Do not attempt to make any modifications to the soda siphon yourself.
4. Any attempt to repair the soda siphon yourself or any improper manipulation of the soda siphon will terminate all warranties and liabilities.
5. Never use the soda siphon if damaged. If a soda siphon is dropped or potentially damaged, please return to the factory for a safety check. Please call for proper authorization before returning said product for testing.
6. For spare parts, please contact your dealer.
7. Please keep instruction booklet.
8. Only use original CO2 chargers.
9. Keep soda siphon and chargers out of the reach of children.
10. All parts can be assembled easily; therefore, never use force.
11. For safety reasons do not bend over the soda siphon while charging.
12. Do not expose the soda siphon to heat (stove, sun, oven, microwave etc.).
13. Do not put the soda siphon in the freezing compartment or the freezer.
14. When cleaning only remove those parts as shown in fig. 1.
15. Do not use any sharp objects or abrasive materials when cleaning the bottle.
