

Thank you for choosing this spectacular looking and high quality LISS Professional Soda Siphon. With this classic Soda Siphon you can create sparkling seltzer water and a multitude of other seltzer drinks by just mixing with syrups, juice or with alcoholic drinks like white wine or Whisky. Before using the LISS Professional Soda Siphon, please read the following instructions carefully.

#### Instructions for use:

1. When using your Soda Siphon for the first time, or if you have not used it for a while, **rinse the bottle** first with warm, then with cold water **before filling** it with water.
2. **Fill** in well-chilled fresh drinking water up to the red mark. Do not fill the **LISS Professional Soda Siphon** with more than the permissible quantity of water as indicated on the bottle (quart/1 liter). Do not mix any other ingredients inside the LISS Professional Soda Siphon.
3. Place the gasket with the tube inside the bottle neck (fig.1) and **screw head on to bottle evenly and firmly**. The head is in place correctly when no thread is visible. **Do not cross-thread!**
4. **Insert LISS Professional soda charger (CO<sub>2</sub>) into the charger holder**. For guaranteed quality use **LISS Professional soda chargers** only.
5. Screw the charger holder on to the inlet valve (fig. 2) until the charger content is released with a hissing sound. **Use only 1 charger for each filling**. **Shake siphon** briskly four to five times (Fig. 3) in a vertical direction. Unscrew the charger holder and charger. The light hissing sound while unscrewing is normal. Remove and discard empty steel chargers which are recyclable as scrap metal. You can now enjoy sparkling water by simply pressing the lever.
6. It is advisable that you keep **LISS Professional Soda Siphon** in the refrigerator (never in the deep-freezing compartment or the freezer!).
7. **Cleaning and storage of the empty LISS Professional Soda Siphon**
  - Before opening, **allow remaining pressure to escape** by pressing the lever. Unscrew the head and remove the gasket with the tube. Do not take apart tube and gasket, you can clean them as one part.
  - Thoroughly clean each individual component with a mild detergent.
  - Allow the parts to dry and store head and bottle separately.
  - **Do not clean glass bottle, head and parts of the LISS Professional Soda Siphon in the dishwasher!**
  - **Do not clean any component of the LISS Professional Soda Siphon in boiling water!**

#### Helpful Hints:

1. Before filling the siphon please cool well under cold water or in the refrigerator.
2. This LISS Professional Soda Siphon is only to be used for the carbonation of pure drinking water! Do not fill syrups, juice or any other ingredient into the soda siphon, all recipes can be easily prepared in a drinking glass or pitcher.
3. Shake every time before dispensing.
4. For best result, serve immediately upon dispensing.
5. For long time storage, please keep head and bottle separately.

#### Safety Measurements:

1. The soda siphon as well as the chargers are **pressure vessels** which require **increased attention** and care.
2. **Attention: Use only LISS original spare parts!** Never combine LISS parts with other LISS products or other manufacturers' products.
3. Do not attempt to make any modifications to the soda siphon yourself.
4. **Any attempt to repair the soda siphon yourself or an improper manipulation of the soda siphon will terminate all guarantees and liabilities.**
5. **Never use the soda siphon if damaged.** Always **send LISS Professional Soda Siphon**, which fell on the floor **in for a safety check**.
6. For repairs always return complete unit (head and bottle).
7. For spare parts, please contact your dealer or LISS.
8. Please keep instruction booklet.
9. Only use original **LISS Professional chargers**.
10. Keep **LISS Professional Soda Siphon** and chargers out of the reach of children.
11. **LISS Professional Soda Siphons can only be used for the preparation of soda water, do not mix anything else inside the LISS Professional Soda Siphon.**
12. All LISS parts can be assembled easily; therefore, **never use force**.
13. For safety reasons do not bend over the soda siphon while charging.
14. **Only open the LISS Professional Soda Siphon when the pressure has completely escaped.** Press the lever until the hissing sound stops.
16. **Do not expose the LISS Professional Soda Siphon to heat** (stove, sun, oven, microwave etc.).
17. Do not put the **LISS Professional Soda Siphon** in the freezing compartment or the freezer.
18. **When cleaning only remove those parts as shown in fig. 1.**
19. Do not use any sharp objects or abrasive materials when cleaning the bottle.

#### GUARANTEE

Defective soda siphon (faulty materials or bad workmanship) will be repaired free of charge (freight prepaid!) within one year of date of purchase. This guarantee does not cover any liability for malfunction caused by improper use, use of damaged parts, or any consequential damage. In order to assure the proper functioning of your soda siphon only use original LISS parts. Read instructions carefully! Further information: [www.liss.hu](http://www.liss.hu)
